Flying transparently, leading responsibly

WELCOME TO ORIZAIR

Transparency meets performance.

Orizair is a private jet booking platform that redefines business aviation by integrating **sustainability and transparency** at its core.

Our mission is to deliver a premium flight experience while accelerating the shift towards a more responsible and future-ready aviation model.

We believe that **efficiency, comfort, and environmental responsibility** are not only compatible – they are the foundation of a new standard in private air travel.

Faced with the climate emergency and evolving regulations, Orizair is built with a long-term vision. From day one, we are committed to **radical transparency** – including our carbon footprint and our commission structure. Our offset strategy is currently under construction, and will evolve in step with our sustainability roadmap.

Orizair provides access to a wide range of destinations from the outset, meeting the expectations of our clients worldwide. At every stage, we will continue to implement innovative solutions to **minimize the environmental impact** of private aviation – **with integrity, clarity, and accountability**.

Why choose Orizair?

Because trust, responsibility, and clarity should fly with you

A transparent and aligned pricing model

- Clear and separate display of flight cost and service fee – no hidden margins.
- You know exactly what you're paying for, and why. Clarity is part of the experience.

A commitment to responsible aviation

- A forward-thinking approach to integrating solutions that reduce the impact of each flight.
- Continuous improvements focused on efficiency, innovation, and measurable progress.

A premium, transparent customer experience

- Dedicated support from our concierge team, for personalized assistance at every step.
- A seamless, efficient journey – with total transparency from booking to boarding.

Validation and Follow-Up

Once the booking is confirmed, our customer service team will send you your boarding pass and assist you up to your departure.

Orizair is not an airline operator. All flights are conducted by certified operators holding a **valid Air Operator Certificate (AOC)** issued by a civil aviation authority.

This certification ensures that the operator meets the highest standards in terms of **safety, maintenance, and crew management**.

We are also committed to meeting our clients' specific **security and comfort** requirements. Upon request, we can ensure that the selected operator adheres to additional criteria, including:

- **Minimum required flight hours** for the crew.
- **Additional safety certifications**, such as **ARGUS or WYVERN Charter Safety Ratings**.
- **Specific criteria** regarding **the type and age of the aircraft****.
- **Enhanced insurance coverage** according to passenger needs.

If you have any specific security or equipment requirements, our team will be happy to assist you.

OUR ENVIRONMENTAL COMMITMENT

Orizair is committed to a **progressive approach** to integrating concrete solutions aimed at reducing the environmental impact of private flights:

Partnership of Orizair 1.5°

A partnership already established with **Treesition** to support reforestation and ecosystem restoration projects.

Development of Orizair 1.5°

A structure currently being consolidated to ensure **transparent, traceable, and measurable management of environmental contributions** related to private flights. This framework integrates **technological solutions**, such as GPS tracking and verified data from funded projects, to guarantee **full transparency and tangible impact**.

An approach aligned with RSE regulations

In a context where **corporate traceability and accountability requirements** are becoming increasingly stringent, **Orizair is anticipating these demands** and adapting its model for a **more transparent and sustainable private aviation sector**.
